

# Bush, Hewes, Clinton top county vote-getters

**BY TRACI BONNEY**  
President George Bush and Congressional contender Billy Hewes took the most votes in Hancock County's Republican Super Tuesday vote.

Bush walked away with a comfortable lead of 1,318 votes to Pat Buchanan's 630. David Duke followed the frontrunners with 334 votes, while Billy Joe Clegg and Tennie Rogers garnered only two each. Twelve voters cast a ballot for

"Uncommitted." In the Fifth District race for the House of Representatives, Billy Hewes won a narrow victory with 658 votes to Paul Harvey's 637. Chris Roosa ended at third with 461 votes,

followed by Will Bramlett with 305. The "Uncommitted" slot attracted 51 votes. Bush's Hancock County victory margin was slightly lower than his state margin. He carried Mississippi with 72 percent

of the vote. The county vote in the Fifth District race reflected the race results districtwide. Hewes and Harvey will be in a runoff March 31 for the Republican nomination. The winner of the

runoff will face incumbent Rep. Gene Taylor, a Democrat, and Independent candidate Shawn O'Hara in November.

### GCA cleanup bill dies in committee

**BY TRACI BONNEY**  
Sen. Vic Frankiewicz said Wednesday he may try to revive a Gaming Control Act cleanup bill he introduced that died in committee.

Frankiewicz recently introduced a bill he said, was designed to plug loopholes in the Mississippi Gaming Control Act of 1990. However, it died Tuesday when a Senate committee voted to adjourn before the bill came up for discussion.

"It came within a hair's breadth of being discussed," he stated. "A bill concerning the creation of a state lottery, should initiative and referendum pass, was right before my bill on the agenda. There was such a heated debate concerning the lottery creation bill that the committee voted to adjourn before they got to the cleanup bill."

## Rejection of Bay zoning amendments fails on 2-3 vote

**BY JACQUI COCHRAN**  
A motion by Bay St. Louis Dist. 1 Councilman Charles Scianna Monday, to reject proposed zoning changes related to dockside gaming, resulted in a 2-3 vote.

Dist. 2 Councilman James Thrifflay joined Scianna in voting non-acceptance of the changes, while councilman-at-

large James Rutherford and Dist. 3 and 4 councilmen John Wilkerson and Thomas Farve opposed.

The planning and zoning commission recommendations remain open to a vote for acceptance, according to Walter Chamberlain, a member of the

## Waveland PD makes burglary, larceny arrests

**BY TRACI BONNEY**  
Several crimes involving arrests of teenagers and young adults kept the Waveland Police Department buzzing Monday, according to Police Chief James Varnell.

The first report Varnell gave was of the arrests of two Walmart employees who were apprehended and charged with two counts each of grand larceny.

"It involved one employee who was off duty. The off-duty employee came through the

cashier's line, gave a false credit card and bought a color TV, car stereo speakers and various houseware goods.

"The items were later recovered from the suspects' residences."

Arrested were Kristi Marie Belle, 20, 752 Blue Meadow Apts., Apt. B-106, Bay St. Louis, and Ronald Demitric Avery, 23, 612 Booker Street, Bay St. Louis.

Varnell said both were released on bonds of \$2,000 each. The case is still under

investigation and more arrests are pending, he added.

**MISSOURI FUGITIVES**  
The second report involved three juveniles, two 15-year-olds and a 16-year-old, all males.

Varnell said they were arrested at 7:15 p.m. Monday after Officers Eugene Boswell and Frank Miller called in a license number on a vehicle during their patrol.

## Industrial park sewer/water improvements priority in '92

**BY JACQUI COCHRAN**  
The Hancock County Port and Harbor Commission announced intent to make water and sewer improvements at the industrial park its number one project for this year.

Cortech Inc. was commissioned to prepare plans and specifications needed to open the projects to bids.

Director Harold "Buz" Olsen said an estimated \$148,000 expansion of the Port Bienville sewer and water amenities is necessary for future growth of the facility.

The present sewer treatment plant has an 8,000 gallon daily capacity.

"With the increased usage of Easterbrook, Calgon and the GE (Plastics) plant expansion," Olsen explained, "we have the capability of overloading the present system."

"What are we to do, should we anticipate another large company moving into the park? I feel we should increase the daily sewer capacity to 30,000 gallons."

Another problem Olsen presented to the commission was the water well pumping capacity.

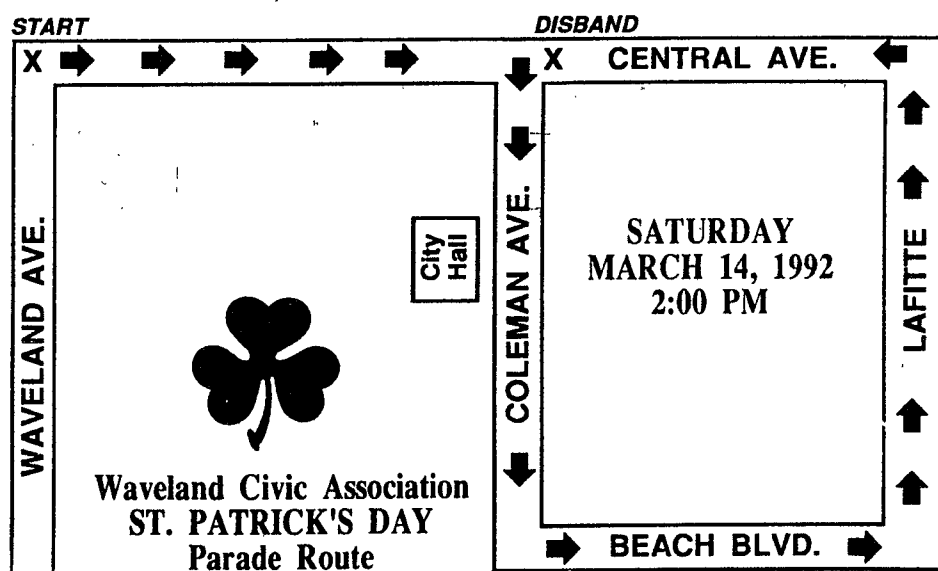

The well was described as 2,000 feet in depth, plentiful in supply and artesian, giving off 50 pounds of pressure when

first dug. Today, that same well, due to reduction in the water table, gives out 26 to 27 pounds of pressure. With the assistance of a pump, water pressure has been boosted to between 25 and 75 pounds.

Commission engineer Carlos Cordon recommended they consider adding another pump to the water well, commenting the one pump is in constant need of maintenance because of the amount of use it receives.

"For the time being, we must put Stennis Airport on the back burner," said Olsen.

## Low voter turnout marks Super Tuesday

BY TRACI BONNEY

Although it received a lot of national media hype, Super Tuesday did not draw large numbers of voters to the polls in Hancock County.

According to Circuit Clerk Pam Metzler, only 4,443 people — 17 percent of the county's 26,000 registered voters — cast a ballot.

Despite the low turnout, Republican party committee officials had good reason to be encouraged by Tuesday's results. Of those who voted, about 2,300 voted in the Republican primary, while about 21,000 cast their ballots in the Democratic primary.

Republican Executive Committee chairman Mike Smith commented, "We're very pleased. We think it reflects the more conservative trend of Hancock County voters."

Concerning the light turnout, he said, "That's low; there's no doubt about it. I think a lack of Congressional involvement in the area might have affected the turnout."

"Also, a lot of people don't get too excited at this point in the election cycle. This is just the primaries, after all. Most people don't worry too much about the primaries."

## Gaming

Continued from Page 1A

The adjournment effectively killed both the lottery proposal and the cleanup bill, since the deadline for bills to come out of committee was midnight Tuesday, but Frankiewicz hasn't given up on it yet.

"I may try to revive it during this session. Now that dockside gaming has passed in Harrison County, some of the other legislators may not feel it such a political liability to talk about the issue."

### HOUSE PROPOSALS

\* Video poker — Members of the House Ways and Means Committee approved a proposal to raise about \$60 million a year by legalizing betting and taxing video poker machines.

\* Bingo: Ways and Means Committee members approved a proposal to tighten existing laws by letting the state Gaming Commission regulate charitable bingo.

\* Lottery profits: Ways and Means Committee approved a proposal to distribute lottery profits among elementary, secondary and higher education.

These proposals head to the House for a vote.

### OTHER MEASURES

\* The Ports and Marine Resources Committee passed a proposal for transport licenses for Louisiana fishermen. The proposal would not allow Louisiana fishermen without Mississippi licenses to fish in state waters,

but would allow them to land fish in Mississippi and transport them through the state.

Frankiewicz said the idea behind the measure is that it will stimulate the Coastal economy by encouraging Louisiana fishermen to frequent the area, which may lead to increases in fuel, tackle, bait, supply, food and beverage sales.

\* The Senate Constitution Committee passed an initiative proposal that would allow people to petition the state to place proposed constitutional amendments on the ballot if the petition contains enough signatures to make up 12 percent of the registered voters in the last governor's race before the petition is filed.

In addition, no more than one-third of the signatures can be from any one Congressional district, and no more than five initiatives can be on the ballot at a given time.

The bill does not allow the people to propose law or amendments, but does give them the right to vote on amendments under consideration by the Legislature, Frankiewicz said.

\* The Senate's version of a measure to take circuit and chancery clerks off the fee system of wages and place them on a salary system died in committee, Frankiewicz said, but the House's fee cap version is still alive. He explained that the bill, which implements a cap at around \$70,000 a year, will prevent clerks from putting family members on their payrolls for large salaries.

## Bush

Continued from Page 1A

In the Democratic presidential primary, Bill Clinton carried Hancock County with 1,410 votes. No candidate threatened his position at the top; second on the list was Paul Tsongas with 301 votes, followed by Jerry Brown with 201 and "Uncommitted" with 182.

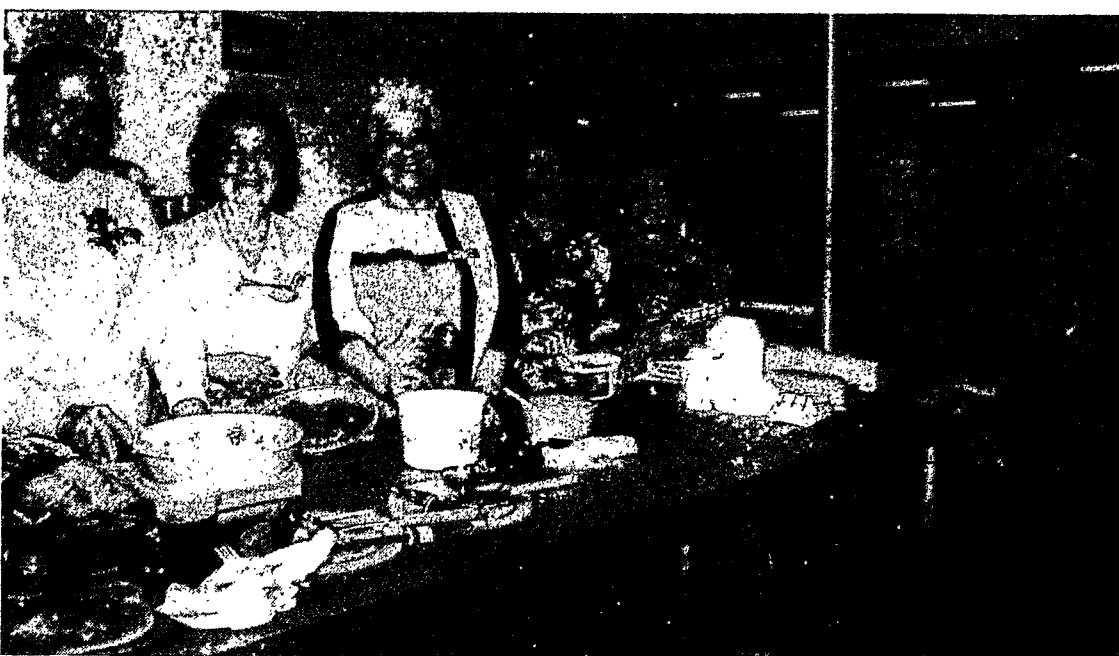

Tom Harkin garnered 27 votes, while Lyndon LaRouche attracted 18 and Bob Kerrey won 17.

## Park

Continued from Page 1A

Commissioner Dave McDonald estimated the present sewer and water systems at Port Bienville to be 20 years old.

Olsen assured commission members that costs invested in the industrial park improvements would be absorbed in service charges to park customers over a period of time.

## Community Prayer service Fri. at St. Rose

Father Ken Hamilton will host a Community Day of Prayer at 10 a.m. tomorrow in St. Rose de Lima Catholic Church.

The Hancock County Ministerial Association sponsors the annual service during the Lenten season.

The Community Day of Prayer is interdenominational and ecumenical in nature. It provides a worship experience and Christian fellowship.

The program, directed by Mrs. Marilyn Smith of St. Rose, features congregational singing, prayers and music. Several speakers will lead discussions on the subject of prayer.

An offering will be taken for Hancock Emergency Relief Fund which is administered by the Ministerial Association.

The public is invited. This year marks the 19th anniversary of this local observance.

## "QUOTABLE QUOTES"

By Ellis C. Cuevas

The annual Waveland Civic Association St. Patrick's Day parade is scheduled for Saturday at 2 p.m.

The parade forms on Waveland Avenue by the ball park and will travel down Central to Coleman, Coleman to Beach, Beach to Lafitte, Lafitte to Central, Central to disband at Coleman.

There will be floats, trucks, cars, bicycles, marchers, groups, bands, individuals and all types of entries in the annual parade which rambles through the streets of Waveland.

Cabbage is one of the favorite throws of some of the float riders, so I guess a lot of folks will be eating cabbage next week.

There will be several awards for the best decorated floats, maskers, etc.

The Waveland Civic Association has been bringing the annual event for many years, and club president Jay Lagasse is looking for a big turnout of spectators as well as participants on Saturday.

I hope to see you at the parade.

Robert Howard of Jourdan River Shores dropped by the office on Tuesday with a very interesting item.

He has an official 1948 American Legion Junior State Champions baseball signed by Babe Ruth.

Howard was a member of the Louisiana American Legion Junior Champs team in 1948 and played in the regional tourney which was held in Austin, Texas.

The regional championship was won by Austin.

Howard has also in his files a list of the Mississippi championship team from Jackson which participated in that tourney and is trying to locate members of that team.

The baseball he has is between the size of a regular baseball and a golf ball, and he is wondering how many of these are still in existence.

If you think you have some information, give me a call and I will relay it to Howard.

From short-sleeve shirts to coats was the change in attire for Hancock Countians from Tuesday morning to evening.

The quick change in temperatures is nothing new for this time of the year, and I am hoping that it will not get cold enough to 'burn' many of the fruit trees which have already bloomed.

I still have not seen any pecan trees breaking buds indicating the cold weather is over with, according to many of the oldtimers in the area.

I know many are ready to plant their gardens, and it still may be a bit early for tender plants such as tomatoes and peppers unless you have a way to protect them from a possible frost.

One thing is for sure, the gnats are still around. I wish the fish would have been biting as much as the gnats were last weekend.

It seems there were millions of gnats in the marsh, and they were all attacking me. Even with spray they managed to get into my eyes.

Well, anyway, my brother Raymond and I managed to catch a few nice perch.

The reality of a train stopping in Bay St. Louis appears to be getting closer and closer.

Latest information from Senator Trent Lott indicates Amtrak's service will begin in October along the Mississippi Gulf Coast.

There are still many of us around who remember when the railroad depot was the center of activity in Bay St. Louis.

The entire grounds around the Louisville and Nashville Railroad depot was the showplace of Bay St. Louis.

Trees and shrubs were pampered, fertilized and pruned, while the lawn was manicured by a full-time staff.

Bay Mayor Eddie Favre is working very hard in an effort to secure the old depot from the CSX.

Wouldn't it be great to have the depot and grounds once again a showplace for our city?

Best of luck, Mayor Favre.

## FROM THE GOVERNOR'S OFFICE

By Governor Kirk Fordice

### Governor's office hamstrung by predecessor's spending

I am pleased to be able to address you in writing here in the pages of The Sea Coast Echo. I want to reach out to you in this fashion in a straightforward, frank and honest manner.

I would like to use this weekly opportunity to, not only relay my real thoughts on specific issues, but to invite you to respond to my views either by writing my office or your local newspaper editor.

The first item I'd like to discuss is my recent request to the Mississippi Legislature for a fair appropriation for my office. Unfortunately, this particular issue is a classic case of individuals forming opinions with misinformation.

Critics would like to connect this request with the recent budget cuts—that is not the case. Please consider me the "horse's mouth" and listen to my story from the beginning!

Shortly after I was elected, I proposed cutting my own staff from 60 employees in the previous administration to 44 employees—saving our state more than a half million dollars—all before anyone even mentioned budget cuts.

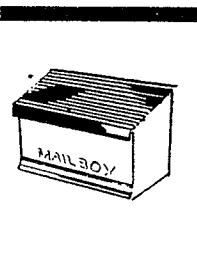

When the budget shortfall was announced and I was forced by law to cut our state's budget, I did so by cutting my own office 5 percent while sparing education and other vital state agencies as best I could with only a 2.5 percent cut.

Soon after that, I learned that the previous administration had spent three quarters of the money appropriated for the Governor's Office with half the fiscal year left.

It was only after learning these circumstances that I finally had to ask for additional appropriations. The alternative is to shut my office down due to lack of funds, as of April 1, and have no staff support during this crucial legislative session.

I sincerely empathize with our schools and state agencies during this difficult period and I ask for no sympathy for my office. I have instructed state agency heads to take specific action that they deem necessary to realize the cuts, and I will do the same.

The idea of my being hamstrung by my predecessor's spending habits, however, does not seem fair to the people of Mississippi.

## LETTERS TO THE EDITOR

### Complaints against Multivision explained

Dear Editor,

As it is written, "For the Record," page one of Sunday's Echo did not tell the whole story of Pat Jastram/Multivision Cable Co.

The city was not asked to close down Multivision Cable Co. The city was asked to cause Multivision Cable Co. to live up to three parts of Section 7 of their franchise agreement. As Paul Harvey would say, "Here's the rest of the story."

The three parts are: —"Multivision Cable Co. will provide facilities and service sufficient to meet the needs of the public welfare." The complaint: Multivision Cable Co. made no response to a letter from seven local pastors, which read in part, "We find a serious imbalance in viewing choices, in that there is great variety in portrayal of violence and immorality offered, with very limited choices in uplifting and morally healthy programming from which to choose. We ask out of concern for our congregations that you give them the choice of viewing Trinity Broadcasting Network, 24-hour Christian channel. Furthermore there was no response to a petition sent separately. Photo copies of certified letter receipts

were offered.

—Multivision Cable Co. will give reasonable notice of interruption of service. (Interrupt—to break the continuity or regularity of; to intrude upon the course of). No notice was given to me to be on guard for an avalanche of unsubscribed for, unasked for and unwanted pornography and violence which was coming over my television through the unscrubbed Premium channels.

This complaint was made in a hand-carried letter to the local office. The people were friendly and helpful. Mr. Baxter was at my house the next day with a remote control which could be programmed to block out the unwanted channels.

—Non-discrimination of service—While we are delighted to have EWTN for our Catholic community, we believe we should also have TBN, which addresses the Protestant view and the Catholic.

That is the rest of the story, but here is the best of the story, or better said the good news! Mr. Mobley of Multivision Cable Co. offered Mayor Fritot TBN. Mr. Hubbard made a motion to accept Mr. Mobley's

## EYES ON MISSISSIPPI

By Bill Minor

### GOP supports cross-filing instead of open primary

For years the Republicans complained that the state election laws were rigged in favor of the Democrats, who wrote the laws in most cases long before they even recognized the existence of the GOP.

Now the Republicans can no longer be ignored. Moreso, the GOPers have even gotten their hands on some of the levers of power around the Legislature and they aim to use them to give election laws a Republican spin for a change.

Significantly, both the House and Senate Election Committees have chairmen who are Republicans: Rep. Bill Denny of Jackson on the House side and Sen. Roger Wicker of Tupelo in the Senate.

It's also of more than passing interest that the state's new Republican Governor, Kirk Fordice, made election law reform a keystone of his legislative program and created a task force to make recommendations to him on the subject.

In his campaign, Fordice had said he would seek to give Mississippi an "open primary" election system similar to Louisiana's, in which all candidates, regardless of party, run in the same primary. If no one receives a majority, the two highest face each in a general election.

Ironically, Mississippi was the birthplace of the open primary idea back in the late 1960s. The Legislature passed it and the bill was sent up to the U.S. Justice Department for approval under the 1965 Voting Rights Act.

But because of opposition from black political figures, primarily civil rights leader Charles Evers, on grounds the system would eliminate blacks running as independents in general elections, Justice rejected it.

Mississippi Republicans, who initially opposed the idea also as a scheme to bury the GOP, decided when it came up and was passed again in 1970 that they were for it. And with a Republican attorney general in Washington, the chances looked good for it being cleared.

What followed was one of the most odd-ball political developments of all time. Atty. Gen. John Mitchell (he of later Watergate memory) sent down to Mississippi a letter ostensibly approving the open primary law.

But because of the ambivalence of the Justice Department letter, a three-judge federal panel headed by Circuit Court of Appeals Judge Charles Clark in early 1971 threw up its hands and declared the open primary law in "a state of suspended animation" as far as the 1971 state elections.

It never came out of that state of "suspended animation." Ironically, Louisiana, copying the Mississippi open primary plan, got its law approved in Washington in 1974. One more time in the latter 1970s, the Mississippi Legislature, thinking Louisiana had set a precedent, sent up another open primary bill to Justice. Again Mississippi was turned down.

Fordice had intimated that with a Republican governor now in charge in Mississippi, and with good Republicans running the show in Washington he could get the Justice folks to change their minds about open primary.

But last week, it became evident that the Fordice Administration has abandoned the idea of trying to install an open primary system along the Louisiana lines, which requires a majority vote to win in the runoff.

Fordice election advisor and longtime GOP leader Haley Barbour, the Yazoo City-Washington D.C. attorney who formerly worked in the Reagan White House, conceded that he did not believe the Justice Department will approve any election plan from Mississippi requiring a majority vote.

Furthermore, Barbour told a legislative committee last week, "We don't want to reopen the bloody battles of the past," with black opponents on the majority vote issue.

What the Fordice Administration now supports, he said, is a "cross-filing" system, which would allow candidates of one party to also file as a candidate in the primary of the other party. It would be possible to be nominated by both parties.

Barbour predicted that most local officials would choose to run in both primaries, thus solving the dilemma of many voters who now charge they cannot get to vote for some of their favorite local candidates and still vote for a statewide candidate of their choice who is running in a different party primary.

One Democratic lawmaker, Rep. Perry Watson of Hattiesburg, after hearing Barbour's pitch, said, "I don't see any need for it. It would be very destructive for the Democratic Party."

Meantime, Rep. Denny, the GOP sponsor of the cross-filing bill, intimated he won't make a strong push for it this session. But it's still part of the Republican strategy.

## Dumping angers Shoreline residents

**By T. H. (DOC) TOUPS**  
Shoreline Park residents are concerned that their neighborhood is being used as a trash dump, according to several who complained to The Echo this week.

Piles of trash and cast-off household appliances are beginning to litter some area streets. 18th and 16th streets, between Avenue A and Avenue B have recently been blighted by illegal dumpers.

Sam Cuevas, county road superintendent, is aware of the problem. "There is not much you can do unless you catch them in the act," he said. Cuevas said he would dispatch a crew to clean up the mess on

16th and 18th streets.

"What some people don't realize is that they are costing themselves money. When they illegally dump, we have to stop our normal routine and send out crews at county expense," he said, adding, "There are two dump sites in the county and five convenience centers for trash and garbage."

Chief Deputy Delbert Seay of the Hancock County Sheriff's Office, said his personnel are aware of the illegal dumping problem, and officers will be on the lookout for violators.

"They will be charged with littering," he said. "Offenders may be subject to a \$50 fine and a \$50 beautification fee." In addition to the monetary fines, Seay explained, judges have the discretion to sentence those convicted to community service, helping to clean up the mess they helped to create.

## BMR survives two attempts at division

**BY JACQUI COCHRAN**  
State Representative J.P. Compretta reported Tuesday the failure of two bills proposed for the creation of a separate marine commission to oversee the Bureau of Marine Resources.

Compretta said the two bills, House Bill 969 proposed by Compretta and Senate Bill 2919 proposed by Senator Tommy Gollott of Biloxi, failed to leave committee.

"There was a general feeling among my colleagues," Compretta said, "that present funding would be cut by other legislators."

The two proposals called for the establishment of a commission empowered to "manage, control, supervise and direct any matters pertaining to salt-

water aquatic life and marine resources."

The bills would have created the separate Marine Conservation Commission and cut the BMR out of the Department of Wildlife, Fisheries and Parks.

# Annual Red Bean Cookoff benefits Cancer Society

The second annual Red Beans and Rice Cookoff will be hosted by the Hancock County Chapter American Cancer Society Monday, March 30, 11 a.m. until 2 p.m. at the Bay-Waveland Yacht Club.

For a \$5 ticket, you can sample 'famous' recipes from such 'noted' Hancock County chefs as Chuck Breath, Walter James Phillips, Stella Prilot, Eddie Favre, Prima Wusnack and many more.

Some 20 entries have been received in three categories of competition, including restaur-

ant, corporate and government. A validated ticket serves as a ballot for favorites in each category. Professional judges will select three "Top Bean" winners.

Coleslaw, French bread and iced tea round out the menu. Desserts, donated by Dairy Queen of Diamondhead, will be available.

For more information, or to purchase tickets, call Janet McQueen at 467-5473, Anne Schmidt at 467-0397 or Basil Kennedy at 467-5793.

## COOKING UP A STORM

By Katy McGuire  
Caire

The Welsh Rabbit, it is said, is the oldest known cooked dish in the world, first stirred up in a cauldron over an open hearth many, many years ago in Wales by resourceful housewives.

Meat was scarce in the countryside at the time—so the men of the family went a-hunting rabbits in the fields. Oftentimes they returned empty-handed, outrun by their quarry, so it was up to the womenfolk to cook up a hearty substitute for the elusive hares which the hunters had failed to capture.

One such disappointed housewife, so the tale goes, chopped up a hunk of cheese, placed it in the sturdy iron pot dangling from cranes about the hearth, then hung pieces of bacon from the cranes so that the drippings mixed with the bubbling cheese. When the cheese was melted she served the "Welsh Rabbit" with great chunks of fresh-baked bread and a barely repressed smirk at her husband's expense.

According to another tale, it is said that one evening at a banquet, a Welsh chieftain, alarmed when the meat was almost gone from table, rushed to his cook, asking for a substitute. The resourceful cook quickly put together melted cheese and toasted bread, informing the guests that this was a "Welsh Rabbit," and the

name stuck.

Whatever the source of inspiration, the Welsh Rabbit—please let's not get fancy and call it a "Welsh Rarebit" as some do) has been a flavorful dish for luncheon, supper or midnight snack, at the kitchen table or a candlelight buffet for a long, long time.

Webster's dictionary defines the "rabbit" as "A dish made of melted cheese, also a joking term like the 'Cape Cod Turkey' which is codfish," and that those who don't catch the joke refer to the dish as "Rarebit."

However you spell it, or misspell it, the "rabbit" is tasty whether you simply serve it over toast points or hot chunks of bread or add variations and embellishments.

I sometimes add cooked shrimp to the rabbit; at other times I use crumbled bacon and chopped fresh tomatoes and onions. At other times I use this tasty cheese concoction as a topping for cooked chicken, turkey or ham slices. It's amazing what a blanket of Welsh rabbit can do for those tired slices of chicken in the fridge when unexpected company arrives at table. And, when you brown the dish under the broiler, it's even better.

The Welsh Rabbit is usually served over toast points; and be sure to toast the bread in a hot

oven until it's brown and dry, so that it won't turn rubbery when you pour the Welsh Rabbit over! (I prefer French bread, charred a bit over an open flame.)

Tired beer is an essential ingredient of the Rabbit; but, if you haven't remembered to open the beer ahead of time, use fresh-opened beer, or omit it. Here's:

### WELSH RABBIT

1 lb. good, sharp Cheddar cheese (grate, shred or dice as you like) that all but "bites you back"

Generous dash of Worcestershire sauce, hot pepper sauce, cayenne

1/2 cup beer (approximately) Sliced ham or chicken, etc. (optional)

Dump the cheese into a heavy skillet or double boiler (or chafing dish). Add the seasonings and the beer, stirring constantly over low, low heat with a wooden spoon, as the cheese melts and mingles with the seasonings. When it's all creamy-smooth, your Rabbit's ready.

You may want to blanket slices of ham or turkey with the Rabbit and run under the broiler a minute or so until puffy and golden brown.

## Catfish cookbooks available

One phone call can now put you in touch with a bounty of delicious catfish recipes.

The Catfish Institute, an association of catfish farmers and feed manufacturers, has established a new 900-number.

By dialing 1-900-737-FISH, consumers can obtain a full-color, 16-page recipe booklet, *The Catfish Cookbook*, filled with 20 appetizing dishes such as "Catfish Meuniere" and "Quick Catfish Gumbo."

Each recipe, from sumptuous soups and salads to surprising pastas and fajitas, features the mild flavor and firm texture of Mississippi farm-raised catfish.

The service is available nationwide, 24 hours a day. A charge of \$3.99 is added to the monthly phone bill to cover the cost of the cookbook, shipping and handling.

In 1986, The Catfish Institute (TCI) was formed to further public awareness of the positive qualities of Mississippi farm-raised catfish.

### BIBLE/CHOIR CLASS

We actually have two priests from the seminary for our Friday morning class. Father Winter has joined Father Frank and plays the piano for the singing. Some of our folks were in the hospital this week, but we have a few new members. Still have room for more if you enjoy the Bible and singing—come join us on Friday at 9 a.m. in the cafeteria.

Arlene Johnson will start a new shirt class Thursday, March 2 from noon to 2 p.m. She has a few openings if you are interested in making shirts with an Easter motif. Call the center at 467-9292 to put your name on the limited list.

Emily Gardner is also doing a class on Tuesday morning, but it is already filled with students from her previous class. You

can put your name on the waiting list for her next class if that time would suit you better.

### TABLE GAMES

We have started having table games in the ceramic rooms from noon to 3 on Wednesday. We had a hot bridge game last week and expect more this week. Come join us for checkers, etc.

### HOMEMAKER CLUB

Darlene Underwood will be meeting with us Tuesday March 31 at 9:30 a.m. to establish a Homemakers Club which will meet at the center monthly. If you are interested in meeting with us here, please call or come by and sign up with us.

### MEDICAID

If you think you might be eligible for Medicaid, come to the center Thursday, March 12 from 8-11:30 a.m. A representative from Medicaid will be in the conference room to take applications. If your income is below \$552 a month, you may be eligible (for a family of two it is below \$740 a month).

## Commercial red drum fishing season closes

Commercial season on red drum, commonly known as redfish, will close in Mississippi waters at midnight March 20.

Bureau of Marine Resources biologists said the season will close because the annual 35,000-pound commercial quota on red drum has been reached. The quota applies to the year beginning Oct. 1 and

ending Sept. 30 of the following year.

The commercial red drum season will reopen Oct. 1, 1992.

Recreational red drum season remains open. Recreational fishermen may take three red drum per day between 22 and 30 inches in length. Of those three fish, one may exceed 30 inches.

## Flounders, soft and hard shell crabs being caught

## FISHIN' Y'ALL

By Jim Maness

It's time to go fishin' y'all. The turtle was really starting to feel sorry for himself this past week. Nobody, nowhere was able to tell him where to catch any "real" fish. To the turtle "real" fish mean the saltwater types.

Now I know that there are folks who swear that the only way to fish is to go after the huge mouth bass. Then there are those folks who are catching their fill of perch in the canals. Yes, a few perch are biting wherever you can find some clear water. But the word on saltwater fishin' has been between rotten and terrible. In other words, not good.

In one last desperate attempt to locate some fishin' action, I stopped and talked to a family of young fishermen around the Salt Bayou area.

The report from the Jackson and Stiglet kids made the heart of the turtle just about jump out of his chest. The Jackson kids—Rudy, Ryan and Harold, and the Stiglet Kids—Eric, Charlie and Ronald Jr., not only caught some flounder, but they caught about three dozen soft shell crab in the area of Sand Bayou

wade fishin' at night.

I have a reliable report from their father that the catch would have been much larger if only the kids would not have sounded like a herd of elephants going through the water.

Matter of fact, Ronald Jr. is said to have invented a new way to determine if that dark area on the bottom is really a flounder; he steps on the dark area and if a fish almost knocks him down, then he figures that it must have been a flounder. I would think that this method could use a lot of improvement, particularly if the supposed flounder is really a sting ray.

I guess the nice thing is that a family got to go out together and catch a mess of soft shell crabs and enough flounder to eat.

I did not check out the flounder gigging, nor the scoop net action on the soft shell crabs earlier, because I thought the water was too muddy.

Checking the shallow areas, it seems to be clear enough to catch a few soft shells and flounders as long as you stick to less than a foot of water.

The next thing to check along the seawall was the action on

the boiling type crabs, you know, the hard shell types. Well, sure enough, you can catch as many hard shell crabs as you like if you take the time to get out with a few nets and some crab bait.

Speaking of crab bait: Mike Raphael sure showed me a unique way to catch crabs. He used his hand for crab bait. Now I have seen quite a few people use just about anything for crab bait, but using your hand for crab bait seems to be going a bit too far to try and save money.

I asked Mike if it hurt to have a crab clamp down on your hand like that. Mike said that it hurt like the dickens. This did not make a lot of sense to me, so I asked him why, if it hurt so bad did he still use his hand for crab bait? Mike's answer was that "it felt so good when the crab let go off his hand." When I got that answer I felt it was time to go check out other areas.

The turtle is on the trail of some really strong scientific

information that The Louisiana Department of Wildlife and Fisheries Commission has just completed. The results are supposed to be from a five-year study and they are about the mortality rates on male speckled trout.

If the information is correct, it shows that the majority of the male speckled trout die before they reach 14 inches in length. If this information is indeed accurate, then a whole category of fish are being wasted by the current size limits that BMR has imposed upon the saltwater fishermen.

I would guess that the inability to properly utilize our fisheries resources is why our elected representatives have found it necessary to overrule some of the actions of BMR.

This week's wonderful wise words: Being a roofer by trade does not qualify one to be director of BMR, or does it?

Isn't freedom and democracy wonderful, turtle?

# LIVE THE LEGEND!

1895:

On April 24th, American shipmaster Captain Joshua Slocum embarked from the port of Boston, Massachusetts in his 36' sloop the *Spray*, a converted oyster boat. On June 27th, 1898, he dropped anchor at Newport, Rhode Island to become the first man to single-handedly circumnavigate the world. Captain Slocum and the *Spray* were lost in a gale off Martha's Vineyard on November 14, 1909.

In Bay St. Louis, everybody is familiar with the dog ordinance which was framed and approved by the present administration. It was thought the ordinance would rid the city of its curs running all over the streets.

There still is a large number of dogs running wild without licenses. The Echo and the community wants to know whose job it is to enforce the ordinance.

The city must do one or the other - see that the ordinance is enforced or money refunded those whom were made to pay.

The Sea Coast Echo is there.

## Do you know them?

Dr. Skip Matheson of Diamondhead presented this photo of a 1928 Bay High football championship team, which included his father-in-law Harbin Miller, top row, third from left. Dr. Matheson's wife is the former Sue Miller of Logtown. The Mathesons would like to know the names of the other members of this Bay High squad. The Echo will reprint the photo when the team is correctly identified. The Echo welcomes photos older than 25 years for publication. They will be returned to owners.

## Rocks edge East Central

By Dale DeCamp

Tuesday night at the Rock-A-Chaw diamond in Bay St. Louis, the Rocks edged the East Central Hornets 9-8. The win upped SSC's record to 5-2 overall and 2-0 district.

Top hitters for the game were John Bishop 2-4, Dale DeCamp 1-1, Mickey Quinlan 1-1, and

Brady Price 1-3.

The Rocks trailed most of the game, but in the seventh inning they came alive. In the top of the seventh the Rocks' defense retired the East Central Hornets quickly and held them without scoring.

In the bottom of the seventh the Rocks offense came alive by

Dale DeCamp hitting a one-hit single to left field. Bryce Gex went into the game to run for DeCamp. Gex stole second, setting the Rocks up for the win with Brady Price at the plate with a count of 1 ball, 2 strikes. Price hit a deep shot to left center field, which scored Gex from second base.

Coach Carey Ourso stated, "Physical errors were committed and the Rocks did not play well. Defensively, we struggled. We put ourselves in tough positions because of our poor defense. We will have lots of work to do, but good teams win games when they don't play well."

The Rocks baseball team will take on the Picayune Maroon Tide in a key divisional match-up Friday at 5 p.m. for JV and 7 p.m. for varsity at Picayune's baseball field.

## Umpire clinic slated

An umpire clinic, sponsored by the Bay St. Louis Little League, will be Thursday, March 19, at the meeting room of the City-County Public Library, Hwy. 90, Bay St. Louis. The clinic will begin at 6 p.m., and will last approximately three hours.

Persons interested in being certified as a Little League umpire and others just interested in learning baseball and softball rules are urged to attend the clinic.

There is no fee for the clinic, and further information is available by calling Mary Perkins after 5 p.m. at 467-6644.

## Flotilla 35 sponsors safe boating classes

The U.S. Coast Guard Auxiliary Flotilla 35 will offer a free boating safety and seamanship course starting March 18 at the Pass Christian Yacht Club.

The 12-lesson course will cover all phases of safe boating, including navigation, communications, boat handling, sail-

ing, weather, piloting, charts, radio, etc.

Registration starts at 6 p.m. on Wednesday, March 18.

Final registration of players for the Bay St. Louis Little League will be at the Bay St. Louis Baseball Park at Athletic Drive Saturday, March 14 from 9 a.m. until noon.

To be eligible, candidates must qualify as follows:

—They must reside within the established boundaries of Bay St. Louis, including parts of

Hancock County and Pass Christian. Waveland residents are ineligible. Proof of address (post office box will not be accepted) must be shown.

—They must have been born on or before August 1, 1983. Prospective players must bring legal proof of age (birth certificate) and be accompanied by a

parent or guardian.

—Candidates accepted must report for tryouts at 6 p.m. Thursday, March 19 (9- and 10-year-olds) and Friday, March 20 at 6 p.m. (11- and 12-year-olds) at the Bay St. Louis Little League Field on Athletic Drive. Candidates must bring their own gloves.

## Glock Foundation to host Gulf Regional Shooting Match

The Glock Sport Shooting Foundation is sponsoring the GSSF Gulf Regional Match March 28-29 at the Lafayette Parish Louisiana Sheriff's Range.

The match is open to both civilians and law enforcement personnel. Contestants must own Glock pistols and be GSSF

members. Memberships will be available at the match.

There will be separate classifications for civilians and law enforcement personnel, with several categories in each classification. Glock pistols and cash prizes will be awarded.

Glock pistols, safe holsters, ear and eye protection and at least 50 rounds of factory ammunition are required for all competitors.

Targets are G1, similar to the NRA D1 target. A separate fun match will use six eight-inch steel plates.

Pre-registration is \$25 if postmarked before March 16. Registration is \$35 at the match.

For more information, write to Chris Edwards, GSSF Director of Competition, P.O. Box 1254, Smyrna, GA 30081, or call (404) 319-4773.

## The weed war—

Unwanted weeds must be identified to be treated

Through the years summer weeds have made a mockery of many Mississippi lawns. This mockery has turned otherwise benevolent homeowners into demons full of anger and disgusting innuendoes.

Even though they have not made their presence known, they are there. Yes, in an arrested stage, they loom, awaiting the optimum condition to appear and haunt homeowners out of their gourds.

Weeds invariably compete for water, nutrients, space and sunlight during the growing season. Besides, weeds are downright ugly in a lawn.

Before we continue, let's define and classify weeds. Simply stated, a weed is any plant out of place. For example, Queen Anne's Lace is an attractive wildflower. However, its beauty vanishes when found in your turfgrass. The definition of a weed is fairly easy to understand, but classification is more complicated.

### LAWN WEEDS

Lawn weeds can be placed into one of three groups: grasses, sedges and broadleaves. Grasses and sedges both have long narrow leaves with parallel veins.

Grasses, however, have nodes (joints) and hollow internode (area between nodes) while sedges don't.

Sedge leaves are arranged in threes and the stem is triangular. Broadleaf weeds have showy flowers, wide leaves and veins in a net arrangement.

To further complicate matters, weeds are categorized as annuals, biennials or perennials. Annuals only live one year and are further divided into winter and summer annuals. Summer annual weeds emerge in the spring, grow during summer, produce seed in the fall and die.

Grassy summer annuals include crabgrass, goosegrass and others. Broadleaf summer annuals include knotweed and

annual lespedeza.

Biennial weeds require two growing seasons to complete their life cycle. The first year, they grow vegetatively, then, flower and produce seeds the second year. Examples include Queen Anne's lace and common mullein.

Perennial weeds, on the other hand, live more than two years. Many of these weeds produce large seed numbers, but are not necessarily dependent on seed production for species perpetuation.

They have numerous underground structures like roots, stolons, rhizomes and tubers. Because of these structures, they are very difficult to control. Examples of perennials include bahiagrass, dallisgrass, Florida betony, Virginia buttonweed and nutsedge.

However difficult this classification scheme might appear, it is necessary. Face it, folks, if you can't identify the weed you can't control it. Poor weed control can generate duress and greatly affect the pocketbook: a place I cherish immensely. This brings us to proper weed control measures.

### WEEK CONTROL

Weeds can be controlled in the established home turfgrass area with herbicides (weed control chemicals) and by prevention. Herbicides labeled for use on specific weeds can provide quick results, save time, and are safe if used according to label directions.

Remember, using herbicides are like using a salt shaker: addition of the right amount can be very beneficial. If used improperly, however, a bad taste remains.

Herbicides can be divided into selective and nonselective based on the spectrum of weeds controlled.

Selective herbicides injure some plants but not others. However, some selective herbicides may become nonselective if use rate exceeds the labeled rates. Always use caution to apply the rate stated on the label. In addition, exceeding the rate specified on the label is illegal.

## COUNTY AGENT NOTES

By H. Randall Smith

Nonselective herbicides, on the other hand, control or injure all plants they contact.

Home turfgrass herbicides can be further classified as preemergence and postemergence.

### PREEMERGENCE HERBICIDE

Preemergence herbicides are applied before weed emergence. These herbicides control weeds before or shortly after seedlings emerge. Therefore, it is crucial for preemergence herbicides to be applied prior to weed seed germination.

Remember, many summer weeds begin their life cycles in late winter. These weeds grow, and if not controlled, will bear seed that can germinate into another generation.

This cycle can continue until frost while other summer annu-

By reducing weed competition early in the growing season, the warm season turfgrass can go through the greenup process and better utilize the later applied fertilizer. Preemergence herbicides should only be applied to dormant turfgrasses.

Preemergence herbicides are effective against germinating summer annuals, summer biennials and perennials. If you miss this application window, do not fret.

Dr. John Byrd, MCES weed scientist, stated, "If the optimum time has passed for preemergence applications, you can apply a labeled post-emergence herbicide after

missed or not controlled the preemergence herbicides.

Many postemergence herbicides work best in environmental conditions that favor plant growth. However, consult the label for specific environmental restrictions. Remember do not apply a postemergence herbicide to warm season turfgrasses during "spring transition."

Application of herbicides during this time can hinder or damage the turfgrass during the early, and crucial stage of active growth. Postemergence applications are generally safe beginning May 1 on the Gulf Coast and May 15 in central and north Mississippi.

Different preemergence and postemergence herbicides are labeled for use only on specific turfgrasses to control specific weeds. Many herbicides safe to use on some turf will damage other types. Also no single turfgrass herbicide will control all weeds.

Therefore, prior to purchasing or applying a herbicide you should know the type of turfgrass and weeds you have. A word of warning, many turfgrass herbicides may injure trees, shrubs, flowers and vegetables. Turfgrass herbicides should only be used in established turfgrasses unless otherwise stated on the product label.

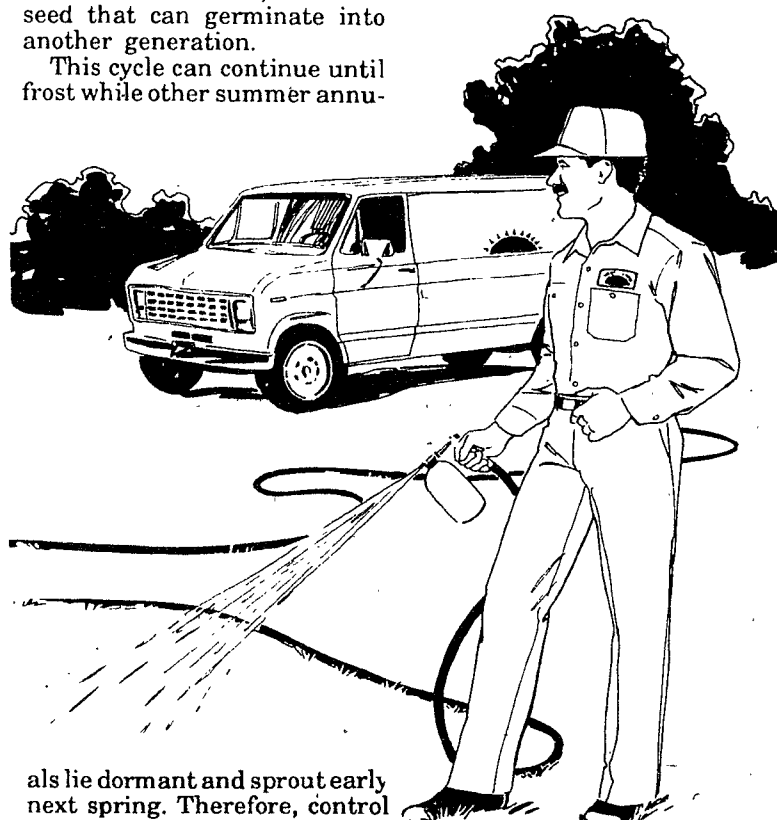

Chemical weed control programs in turfgrass areas are not worth a plug nickel unless certain preventive measures are followed.

These measures include following proper fertilizing, watering, mowing heights to prevent scalping the lawn and disease and insect control. Remember, a proper maintenance program encourages a healthy, dense turf which can out-compete many weed species.

Folks, it's true, "an ounce of prevention is worth a pound of cure." By the way, this approach can either eliminate and definitely minimize the use of herbicides in the home lawn.

If you are thoroughly confused, feel free to contact your local nursery staff for weed identification and herbicide selection for your weeds and turf. Also, contact your local county extension office for a copy of "Establishing and Managing your Home Lawn" and "Weed Control in Home Lawns."

So, until next time, this is H. Randall Smith saying, "Take no hostages in the war against weeds."

als lie dormant and sprout early next spring. Therefore, control summer annual weeds with a preemergence herbicide application from early to mid-March.

Folks in the southern part of the state should apply preemergence herbicides at the beginning of this time and those in the northern part at the end of this period.

It is important to remember that, if a preemergence herbicide is not used, weed control becomes a defensive tactic.

"spring greenup." He further stated, "Optimum post-emergence activity will be obtained if the weed seedlings are less than three inches tall and are actively growing."

### POSTEMERGENCE HERBICIDES

Postemergence herbicides are applied after weed seedlings emerge. These herbicides are often used to control weeds

## Zoning

Continued from Page 1A

National Association of Parliamentarians.

Scianna explained his intent was to force an action by the council on zoning changes, which affect uses permitted in adjacent waters.

"By the city's own governing ordinance, Section 1101, amendments to planning and zoning ordinances need a favorable vote of two-thirds majority of the council, following receipt of objections by 20 percent of affected property owners."

The ordinance states, "No change in regulation, restrictions or district boundaries shall become effective until after a public hearing is held by the Planning Commission..."

The ordinance continues, "If a protest against such change is presented and is signed by the owners of 20 percent or more of those within a radius of 150 feet of the external boundaries of the area, such amendments shall not become effective except by the favorable vote of two-thirds of all the members of the City Council for the City of Bay St. Louis..."

Scianna read Monday from a letter and accompanying petition signed by adjacent property owners to the proposed Mardi

Gras Casino site by the Bay bridge and Highway 90 intersection.

A two-thirds vote requires a 4-1 majority of the Bay St. Louis City Council.

Rutherford stated Scianna's failed motion does not result in an automatic favorable vote for the amendments. He said a separate motion to adopt must be accepted.

City attorney John Scafide was called upon for an opinion and said, "If the use is not specifically authorized, then it should not be authorized before initiated."

In reference to Section 1101 and the need for a two-thirds majority vote, he stated, that in his opinion Section 1101 does not apply to the proposed Planning and Zoning Commission recommendations. "You have to have changes in zones for the super majority (two-thirds vote) to come into play."

"Though the proposals are amendments to the Planning and Zoning Ordinance they do not propose changes to existing zoning."

"These are initial zoning proposals."

Scafide added, again in his opinion, that the current Planning and Zoning amendments require only a majority vote for passage, not a two-thirds vote. Scianna commented his

opposition to the zoning changes voiced the wishes of surrounding property owners. "It is our responsibility as councilmen to provide what the people who will be affected want."

switched tag. The officers tried to stop the vehicle on Hwy. 90, but the juveniles did not stop.

"The officers stopped the vehicle in the 600 block of Esplanade in Bay St. Louis with the assistance of Bay St. Louis Police Department officers Shane Corr, Richard Hannah and Joe Kepfer. After the vehicle was stopped, it was determined that it was stolen from Missouri."

"Found in the vehicle was a loaded 12-gauge shotgun, which had been stolen in a pawn shop burglary in Missouri March 8. We found out that the juveniles were wanted in Missouri by authorities on various charges, ranging from burglary to auto theft and weapons violations," said Varnell.

At the time of the report, the juveniles were being held in the Hancock County jail until Missouri authorities could pick them up, he said.

### RESIDENCE BURGLARY

Varnell's third report recounted the arrests of Theodore Scott Smith, 19, of Pearl River, La., and Peter Thomas McGovern, 19, of Slidell, La., on charges of burglary and grand larceny.

"Both were involved in a burglary on January 14 of a residence on Beach Boulevard in Waveland. Also taken at the time of the burglary was a vehicle from the residence."

"The vehicle was recovered on Old Hwy. 90 in Louisiana January 15. Several items from the burglary were recovered in Slidell."

"A female accomplice is also being sought in connection with the crimes."

Varnell said that at the time

of the report, the two suspects were being held in the St. Tammany Parish jail on Mississippi and Louisiana charges on the same crimes.

He added that the case is still under investigation with Officers Dave Stepro and Bill Pepperman in charge.

## Car recovery leads to strange incident

BY TRACI BONNEY

Monday was a busy day for the Waveland Police Department, but Tuesday was a strange one, according to a report from Chief James Varnell.

He said the department recovered a stolen vehicle around 4:34 p.m. Tuesday after Officer Brett Ladner saw a vehicle that seemed to need assistance and stopped to see if he could help.

"He ran the tag and found out the car was stolen from the Salt River Tribal Police Department in Scottsdale, Arizona," Varnell explained.

The driver, Kester Lee Hall, 48, of Metairie, La., a passenger, Kenneth Guenther, 30, of Oregon, and a second passenger were removed from the car and taken to the police department.

However, when the investigators found out the car was stolen from Arizona and that Guenther was wanted in Clackamas County, Oregon on probation violations for burglary and robbery, the department ran into a problem. The Arizona and Oregon authorities didn't want to extradite the two men.

Waveland officers had little choice in the matter, given the refusals to extradite, so they charged Hall with driving on a suspended license and released him under a \$200 bond, and released Guenther without charging him.

"It must be the aftermath of the full moon," Varnell said of the unusual incident.

## Color Guard championships hosted Friday at SSC gym

Admission is \$4 adults, \$2 students and senior citizens.

## Stove believed source of blaze

BY JACQUI COCHRAN  
County Fire Marshall Jay March reported Wednesday that Saturday's house fire in Pearlinton which resulted in a

fatality appears to have been the consequence of a stove fire. "The investigation is still ongoing," Marsh added. "We are waiting on laboratory results

from samples taken at the site." Henry H. Williams, 47, of 5610 Pine Street in Pearlinton died at approximately 1:50 p.m. Saturday of asphyxiation, Hancock County Coroner Norma Stiglet said.

Stiglet stated that witnesses reported flames coming from the kitchen area of the house Saturday.

## SCOWI spins fairy-tale Mardi Gras ball

**Special to the Echo**  
"Mardi Gras Fantasy" was the order of the night February 22 as the Krewe of SCOWI celebrated their annual ball. History, fairy tales and even Shakespeare graced the ball's tableau.  
The 1992 reigning queen and king were June Strong and Conrad Mauffray.  
Maids and dukes, and who they portrayed, were: Ruby Thomas as Cleopatra and John Eidson as her lover, Marc Anthony; Dorothy Bessey as Betsy Ross, credited with sewing the first American flag, and husband Richard Bessey as an officer of the Continental Army; Evelyn Burns as the Empress of Haiph, China, and husband Jesse Burns

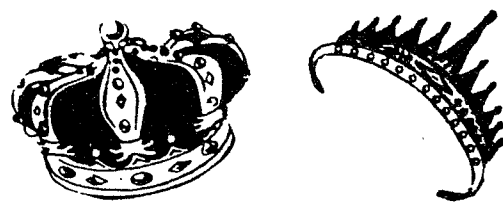

as the Emperor; Helen Mancuso as Cinderella and Jerry Cole as Prince Charming; Velma Schmitt as English royalty Katherine of Aragon and Buddy Williams as Henry the VIII; and Mayola Rotherham as Princess Scheherazade of "One Thousand and One Arabian Nights" and husband William Rotherham as the Sultan of those fairy tales.  
Krewe officers are Kenneth Wilkinson, June strong, Irma Martin, Helen Coleman, Forrest Singer and Toxie Hall. Mary Caillier is captain of the organization.  
Burt Barrett was narrator and the music was provided by the Janns of Slidell. Pictures were taken by Frank's Photography.

## Sea Camp adds two summer sessions

Gulf Coast Research Laboratory announces the addition of two more sessions of Project Marine Discovery Sea Camp for 1992.

Dr. Sharon H. Walker, administrator of GCRL's J. L. Scott Marine Education Center and

Aquarium, said that sessions for the weeks of June 22-26 and July 20-24 have been planned in response to an unprecedented demand for the week-long day camp. Both sessions are being offered for students ages 6-14.

A limited number of vacancies remain in the other seven sessions scheduled for children ages 6-12, June 1-5, June 8-12, June 15-19, July 6-10, July 13-17, July 27-31 and August 10-14. Additional, the June 15-19 and July 27-31 sessions will be open to 13- and 14-year-olds as well.

Sea Camp, initiated in 1988 by GCRL and the Mississippi-Alabama Sea Grant Consortium, uses boat trips, field excursions, hikes, films, arts and crafts, laboratory demonstrations, films, aquarium tours and hands-on activities to acquaint young people with the marine environment and coastal resources.

A charge of \$80 for ages 9-14 and \$70 for ages 6-8 covers instructional costs and materials, transportation and admission fees.

Over 1,200 students from 27 states and several foreign countries participated in Sea Camp last summer.

For more information, call the Marine Education Center and Aquarium at 374-5550.

## Sea/Sail Camp focus is regional maritime history

Pre-registration has begun for the new 1992 sessions of Sea and Sail Adventure Camp, sponsored by the Maritime and Seafood Industry Museum in Biloxi.

The camp is designed to bring about a greater awareness of our regional history and maritime heritage through a variety of fun and educational activities.

This camp will offer unique and different activities, so as to complement the Project Marine Discovery Sea Camp at J. L. Scott Marine Education Center. Some activities taking place will be model boat building, net

making, cast netting, fishing, crabbing, sailing aboard the Glenn L. Swetman, tours of historic sites, and Gulf Coast archaeology.

Six one-week sessions are scheduled for children ages 8-14 on June 8-12, June 15-19, June 22-26, July 6-10, July 13-17, and July 20-24.

A charge of \$100 covers instructional costs and materials, transportation, and admission fees at historical sites. Campers provide their own lunches, snacks and drinks.

For details, call the Maritime and Seafood Industry Museum at 435-6320.

## SSC, OLA place in PRC computer competition

Forty-eight of the area's best high school computer wizards tested their skills recently during a computer programming contest at Pearl River Community College.

Columbia High School's team, made up of Matthew Rhoden, Ramsey Herrington and Terry Polk won first place. Other winners included: Second place—Oak Grove

High, Trey Denny, Todd Harrison, Justin Jaffron and Jeremy Noffke.

Third place—Columbia High School: Kevin Alford, Allen Knight and Vicki Lee.

Fourth place—St. Stanislaus: Mansell Bell, Jonathan Compretta, Ron Kayes and Charles Merrigan.

Fifth place—Our Lady

Academy: Jennifer Carter, Karen Kohl, Jessica Taylor and Jeanne Williams.

Other high school teams participating were from Sumrall, Hancock High School and Hattiesburg.

The students were tested in their programming knowledge and skills in BASIC and Pascal languages.

### Computer competition

A computer programming team from Bay High School tied for third place in the Gulf Coast High School Programming Contest recently at the Perkinston campus of Gulf Coast Community College. Students participating in the three-hour competition and their instructor are, seated from left, Patrick Barber and Maliaca Strom; standing, Michael Benvenuti, Andy Loup, instructor, and David Carver.

## Pass School receives Quota Club grant

Quota Club of the Mississippi Gulf Coast has extended a grant of \$572 to the Pass Christian Public School District to be used for the purchase of carpet for the classroom for the hearing impaired in the Pass Christian

Middle School. Superintendent LeRoy Liza-na accepted the grant on behalf of the board of trustees of the Pass Christian Public School District and the Middle School staff.

## Sperance named to Activities Council

Anthony Sperance of Pass Christian was named to the University of Southern Mississippi's University Activities Council (UAC).

Sperance is the 19-year-old son of Bill and Sharon Sperance of Pass Christian and a freshman communications major. He is a 1991 graduate of St. Stanislaus High School, where he was salutatorian, a National Honor Society member, French Honor Society member and a member of Mu Alpha Theta.

UAC members are selected by an interview process with the UAC executive board members.

## BIG B PHARMACY

Each year more than 100,000 children are accidentally poisoned. Although this number is high, it is smaller than it was just a few years ago. A law passed in 1970 mandates child-resistant closures on both prescription and over the counter medications.

This is why Big B pharmacists package all prescriptions in bottles containing such closures unless the customer specifically asks us not to do so. Opening prescription containers with child-resistant closures is a little inconvenient, but this is a minor problem when compared to the serious consequences of accidental poisoning.

### SSC physics students compete at Miss. State

St. Stanislaus physics students, coached by physics teacher Jim Thriffley, attended the Mississippi State University Physics Competition Feb. 28. Fifty-nine schools from Alabama, Mississippi and Tennessee entered 525 stu-

dents for the competition.

Sam Simpson and Steve Schuff placed among the top 10 percent, while Mike Lee placed in the top 11th percentile. Elliott Selle, Ron Kayes and Martin Braud completed the competition in the top 15th

percentile.

Karen Kohl of Our Lady Academy, Matt Brunner, Jonathan Compretta and Charlie Merrigan comprised the rest of the St. Stanislaus team members.

### Compretta named Sr. of Month

Jonathan Compretta has been named St. Stanislaus Senior of the Month for February.

The award, voted on by faculty members, recognizes seniors who display character traits of sincerity, enthusiasm, family spirit, involvement, observance and responsibility.

Compretta serves as vice-president of the National Honor Society; and is a member of the Key Club, Mu Alpha Theta,

Spanish Honor Society and Varsity Quiz Bowl Team.

He is editor of the school newspaper and literary magazine. He has been Pepsi Student of the Month, and Student of the Day. Last summer he attended Boys' State.

Compretta, son of Mr. and Mrs. J. P. Compretta of Bay St. Louis, was co-captain of the SSC varsity soccer team this year and plays intramural sports.

## ARTIN' ABOUT

**EDITOR'S NOTE:** Artin' About is a regular Sea Coast Echo feature that provides information about fine and performing arts events in the area and throughout the state. Submissions are welcome, and should be sent to Artin' About, Sea Coast Echo, P.O. Box 2009, Bay St. Louis, MS 39520. Notices will be published on a space-available basis, with those events whose dates are closest to the publication date being given first consideration.

**On stage:** Tickets are now on sale for Riviera Productions' first show of the 1992 season — *Sweet*

### Charity.

This musical comedy tells the story of a New York dime-a-dance hostess at the Fan-Dango Ballroom. Charity's romantic, trusting nature gets her involved with an Italian screen star and a square named Oscar whom she meets in a stuck YMCA elevator. The musical includes "Hey Big Spender" and other songs.

LaVerne Boney will play Charity, and Oscar is played by Fred Tacon. Mary L. Evans is director and choreographer, and Rick Bullock is musical director.

*Sweet Charity* will be presented March 27-29 at the Saenger Theatre in Biloxi. Tickets are available locally at Peo-

ples Bank. For more information, call 896-7416.

### On display:

Hillyer House in Pass Christian offers the following exhibits during March: pottery "Gulf of Mexico Collection" fish by Connie Mickle; "Vibrant Watercolors" by Anne Calagaz; "Copper Enamel" jewelry by Kathleen

The Walter Anderson Museum of Art celebrates spring and the seasonal bird migrations from Central and South America with the "Birds of the Walter Inglis Anderson" exhibition opening Friday, March 13.

More than 100 pieces are presented in watercolors, wood

carvings, pen and ink drawings, pencil, pottery and linoleum block prints in chronological and thematic order.

"Protecting Our Feathered Friends," a family program in conjunction with the exhibition, is scheduled for March 14 at the museum. At 11 a.m. and 1:30 p.m., the Wildlife Rehabilitation and Nature Preservation Society (WRANPS) will exhibit wild birds and tell about the rehabilitation program. From 10 a.m. to 4 p.m., the Youth Chairman of the Audubon Society will present an information exhibit about attracting and feeding birds.

For more information, call Martha C. Coghlan, 875-4494.

## Hossack wildflower photos displayed in Bay city hall

Pat Hossack, systems analyst for Chevron Oil, has discovered the beauty of "ditch flowers" and shares these unusual images with Bay St. Louis City Hall visitors.

Nicknamed "Ditch Witch" by her co-workers, Hossack is an amateur photographer who finds the wildflower with the spider spinning a web through its petals, points and shoots. Working with a Canon Rebel camera — a Christmas gift from husband Alex — that stays on

automatic focus, Hossack has captured subjects worthy of publishing.

Exhibit organizer Mike Cuevas commented, "Pat's photographs are just the right exhibit for City Hall. Composition, color and subject matter provoke positive comment among viewers and create pleasant surroundings for employees."

Twenty-three Hossack photos will be displayed in the second floor lobby of City Hall through April.

## Heller to direct 'On Tidy Endings'

Bay St. Louis Little Theatre director and vice-president Dr. Larry Heller will guest direct this weekend at the Gulfport Little Theatre.

"On Tidy Endings," written by Harvey Fierstein is a roller coaster drama about how people are being emotionally affected by people who suffer from AIDS.

The cast includes Curtis Quate and Jack Ohman of Bay St. Louis, Sally Rodrigue of Pass Christian and Tonya Sanders Hays of Biloxi.

Stage manager is Larry Timmerman, props are being handled by Rick Hotelling and the set is by Pat George.

The cast had interesting

experiences rehearsing in several different theatres—Bay St. Louis Little Theatre, Gulfport Little Theatre and Center Stage.

Dr. Heller has previously directed the BSLT's hits "La Cage Aux Folles" and "Marat/Sade." Other shows in "A Night of One-Acts" includes the comedies "Good Neighbors," directed

by Michael Ames and "The Actor's Nightmare," directed by Scott Stevenson.

Performances at Gulfport Little Theatre are Friday and Saturday, March 13 and 14 at 8 p.m. and Sunday, March 15 at 2 p.m. There is no admission fee.

For reservations call 864-7983.

## Books by James, Granberry topic of discussion group

*The Beast in the Jungle*, by James, will be discussed at the Great Books Discussion Club meeting, set for Thursday, March 19, at 7 p.m. in the meeting room of the City-County Public Library in Bay St. Louis.

Mississippi author Granberry's book, *A Trip to Czar's*, will also be discussed during the meeting.

The Great Books Foundation is an independent, non-profit educational corporation. In a Great Books reading and discussion group, adults meet

informally to read, consider and discuss some of the best books written in the past 2,500 years. Meetings last approximately two hours.

There is no cost for the program unless one wants to have one's own copy, and then the cost is \$20 for the three volumes of the third series.

Further information on the meeting may be obtained by contacting Gigi Sandburg at 466-4655 or Richard McCulloch at 467-6333, or the library at 467-5282.

### Art contest winners

Diamondhead Academy first place winners in the Mississippi Private School Association Art Contest, grades K-3, are, from left, Amanda Benvenuti, kindergarten; Elizabeth Wahl, third grade; Angela Dale, second grade; and Jonathan Seither, second grade.

### PUBLIC NOTICE

There came on for consideration the matter of issuing special obligation, negotiable, interest-bearing combined water and fire protection system revenue bonds of the Kiln Water and Fire Protection District, and after a discussion of the subject matter, Commissioner Royce Shiyou offered and moved the adoption of the following resolution:

A RESOLUTION DECLARING THE INTENTION OF THE BOARD OF COMMISSIONERS OF THE KILN WATER AND FIRE PROTECTION DISTRICT TO ISSUE COMBINED WATER AND FIRE PROTECTION SYSTEM REVENUE BONDS OF SAID DISTRICT IN THE MAXIMUM PRINCIPAL AMOUNT OF ONE HUNDRED TWENTY THOUSAND DOLLARS (\$120,000) TO RAISE MONEY FOR THE PURPOSE OF RECONSTRUCTING, IMPROVING, BETTERING AND EXTENDING THE COMBINED WATER AND FIRE PROTECTION SYSTEM OF SAID DISTRICT CONSISTING PRIMARILY OF RECONSTRUCTING, IMPROVING, BETTERING AND EXTENDING THE WATER DISTRIBUTION PORTION OF THE SYSTEM.

WHEREAS, the Board of Commissioners of the Kiln Water and Fire Protection District (the "Board"), acting for and on behalf of the District, hereby finds, determines, adjudicates and declares as follows:

1. The waterworks, water supply and fire protection facilities of the District have heretofore been combined and are operated as a combined system known as the combined water and fire protection system (the "System") of the District.

2. It is necessary and advisable and in the best interest of the District and its inhabitants to issue combined water and fire protection system revenue bonds of the District in the maximum principal amount of One Hundred Twenty Thousand Dollars (\$120,000) to raise money for the purpose of reconstructing, improving, bettering and extending the System, consisting primarily of reconstructing, improving, bettering and extending the water distribution portion of the System, for which purpose there are no other available funds on hand.

3. The Board has employed Garner Russell & Associates, Inc., Gulfport, Mississippi, a competent engineering firm, to study the System, determine the nature and extent of the improvements, repairs and extensions necessary thereto, and make an estimate of the cost thereof.

4. Said engineering firm has determined the nature and extent of the necessary improvements, repairs and extensions to the system and has made an estimate of the cost thereof, which estimate is the aggregate amount of One Hundred Twenty Thousand Dollars (\$120,000).

5. Said improvements, repairs and extensions are necessary, are economically feasible and would be in the public interest and of benefit to the District, and the findings of said engineering firm are hereby adopted, including the estimate of the costs of said improvements, repairs and extensions to the System.

6. Under the provisions of Sections 19-5-151 through 19-5-207, Mississippi Code of 1972, as amended (the "Act"), the District is authorized to make such improvements, repairs and extensions to the System and to provide for the payment of the costs thereof, or any portion of such costs, by and through the issuance of bonds, the principal of and interest on which shall be payable solely from the revenues of the System.

7. A sum not exceeding One Hundred Twenty Thousand Dollars (\$120,000) must be provided and raised by the issuance of special obligation bonds in said amount, payable both as to principal and interest solely from the revenues of the System, as authorized by the Act.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD AS FOLLOWS:

SECTION 1. The board does hereby declare its intention to issue combined water and fire protection system revenue bonds of the District in the maximum principal amount of One Hundred Twenty Thousand Dollars (\$120,000) to raise money for the purpose of reconstructing, improving, bettering and extending the System consisting primarily of reconstructing, improving, bettering and extending the water distribution portion of the System.

SECTION 2. Said bonds in the amount, for the purpose and secured as aforesaid will be authorized to be issued at a meeting of the board to be held at the District's Fire Station, Kiln on March 23, 1992, at 7:30 o'clock P.M., which date so fixed will be not more than fourteen (14) days prior to the last date of publication of this resolution, as directed by Section 3 hereof. If a petition signed by not less than twenty percent (20%) or one hundred fifty (150), whichever is the lesser, of the qualified electors of the District be filed objecting to and protesting the issuance of such revenue bonds on or before the aforesaid date and hour, then an election on the question of the issuance of such bonds shall be called and held as provided by law. If no such protest be filed, then such bonds may be issued without an election on the question of the issuance thereof, and may be sold in the manner provided in the Act.

SECTION 3. This resolution shall be published once a week for at least three (3) consecutive weeks in the Sea Coast Echo, a newspaper published in the City of Bay St. Louis, Mississippi, no newspaper being published in the District, and having a general circulation in the District, and being a qualified newspaper under the provisions of Section 13-3-31, Mississippi Code of 1972; the first publication shall be made not less than twenty-one (21) days prior to the date of such hearing and the last such publication shall be made not more than fourteen (14) days prior to the date specified in Section 2 hereof.

SECTION 4. The Secretary-Treasurer of the board shall be and is hereby directed to procure from the publisher of the aforesaid newspaper the customary proof of publication of this resolution and to have the same before the Board on the date and hour specified in Section 2 hereof.

Commissioner C. J. Mauffray seconded the motion to adopt the foregoing resolution, and the question being put to a roll call vote, the result was as follows:

Commissioner Cleveland Wyatt	voted: yes
Commissioner Carl Olsen	voted: yes
Commissioner Royce Shiyou	voted: yes
Commissioner C. J. Mauffray	voted: yes
Commissioner Glen Stockstill	voted: yes

The motion having received the affirmative vote of a majority of the members present, the Chairman declared the motion carried, and the resolution adopted on the 5th day of February, 1992.

IN THE CHANCERY COURT OF HANCOCK COUNTY, MISSISSIPPI  
IN THE MATTER OF THE CONSERVATORSHIP OF MILDRED GARTZ  
SUMMONS BY PUBLICATION

TO: Mildred Gartz, 67 Kenyon, Hartford, Connecticut 06105

You are hereby summoned to appear on the 10th day of April, 1992, at 9:30 o'clock A.M., at the Chancery Court in Hancock County, Mississippi, to show cause, if any you can, why the petition of Helen G. McGeehan and G. Lynn McGeehan to be appointed Co-Conservators of Mildred Gartz should not be approved.

You are required to mail or hand deliver a copy of a written answer to said Petition, either admitting or denying each allegation in the Petition, to Lucien M. Goss, Jr., Attorney for Helen G. McGeehan and G. Lynn McGeehan, whose address is P. O. Drawer 47, Waveland, MS 39576, and whose street address is 229 Coleman Avenue, Waveland, MS 39576. Your answer must be mailed or delivered not later than thirty (30) days after the 5th day of March, 1992, which is the date of the first publication of this summons. If your answer is not so mailed or delivered, a Judgment by default may be entered against you for the relief requested in the Petition. You must also file the original of your answer with the Clerk of this Court within a reasonable time, after said.

WITNESS MY SIGNATURE, this the 28th day of February, 1992.

(SEAL)

E. MICHAEL NECAISE, CHANCERY CLERK
